THE FLEXIBLE SOLUTION
FOR RELIABLE PROTECTION WITH THE

AirBoy®-micro Packaging System

What can you actually expect from a packaging system?
That it will really make the work easier?

That it will also master demanding tasks with flexibility and dependability? That it will offer more performance? That it will help you to save costs very effectively and will also comply strictly with high environmental standards?

Trust a system that delivers answers – and does not pose any new questions. Trust AirBoy®-micro.

THE FREEDOM THAT YOU WANT:

AirBoy®-micro FOR AIR CUSHION FILMS AND WRAPPERS

AIRBOY®
www.floeter.com

Your advantages at a glance:

- Ultra-lightweight, ultra-mobile, and compact
- Extremely cost-efficient and environmentally friendly with minimum material consumption
- Produces air cushion films and wrappers
- 7 types of film running on a single machine
- Pre-perforated for easy separation
- Film is 100% recyclable
- Autodetection of inventory level with level sensor (optional)

The AirBoy®-micro system is configured as follows as a starter set:

1 AirBoy®-micro, 230 V, 120 W

4 rolls of air cushion film (type 7.x) of your choice, each 700 m, 20 µ

2 rolls of wrappers (type 8.x) of your choice, each 450 m, 20 µ

At the set price of: **EUR 1,249.--**

Please contact our consultants about special conditions for larger quantities. The prices listed are plus VAT and EUR 9.90 for shipping, for the complete set.
