

Heavy Duty Load Protection

The AirWave Heavy Duty Load Protection film provides an incredibly strong and robust element of protection for your shipment and helps reliably to prevent damage in transit.

The Heavy Duty Load Protection film is an excellent, more affordable and environmentally friendly replacement for foam in place or foam cushion applications.

Heavy Duty Load Protection

- Film application for extremely heavy goods
- Tested up to 1000kg
- Film thickness 26µm
- Color: Clear
- **ClimaFilm-40 (> 40% recycled-material, of which >20% PCR)**
- Available also in XL (600mm) and XXL (800mm) version
- Easy disposal

AirWave®
